

Supplement Statement of Chinese National Body

This document is a supplement to the final statement of Chinese National Body made in the morning of Feb. 23, 2005 in Frankfurt Meeting.

Due to the fact that there are a lot of contradictions, conflicts, disputes and problems surrounding 1N7506 and 1N7537, which are not resolved up to now; and due to the fact there are newer unfair treatments, new confusions, and new disputes arising from this meeting regarding to these two proposals;

The Chinese national body strongly demands that all procedural and technical discussions and processing of 1N7506 and 1N7537 are suspended indefinitely within this meeting, and at WG1, SC6 and JTC1 levels until all controversies and procedural problems are resolved with properly and satisfactorily manner.

Chinese National Body will also submit similar request directly to ISO/IEC General Secretariat.

We thank Mr. Joen for his excellent work in organizing and presiding this meeting in a fair and responsible manner. We thank Germany National Body, Unisys Corporation and Mr. Handke for hosting this meeting. We thank SC6 Chairman Mr. Kim for his contribution to this meeting. We thank everyone who attended and made contributions to this meeting.
